

Annual Ceremonial Review 2017

299 Yarmouth Nova Scotia Lions RCACS

What a great day to see all these young Air Cadets in their annual review!

One young man conveyed his research in honour of 100 years of Vimy Ridge.

Outstanding!

It was a privilege to be invited to participate in our CASARA role. Both former and present Cadets along with their families and friends came to our modest display to look and ask questions regarding what we actually do. For some of us, it was the first time we have had the opportunity to be part of the SAR Awareness program in our region of the Canadian geography.

CASARA has provided many useful tools (signal whistles, wilderness handbooks, coloring books with crayons for the younger, etc.) which were given out with heartfelt appreciation. We in CASARA Southwest Nova Scotia hope to be able to expand in such a worthwhile program.
